

A close-up photograph of a plant with reddish-pink flowers and buds. The central focus is a flower with numerous long, thin, red stamens radiating from a central point. Surrounding it are several buds in various stages of development, some showing the beginning of the flower's structure. The background is a soft, out-of-focus green, suggesting foliage. The entire image is enclosed within a double-line border, with the inner line being a thin black line and the outer line being a slightly thicker, dark red line.
